MassDEP South Shore Geographic Response Strategy

North River SS06

Tactic #	Purpose	Response Equipment	Deployment Resources	Deployment Notes
DV-01a	Redirect spilled oil from one location or direction of travel to a specific site for recovery.	700 ft protected water boom 4 marine anchor system 2 shoreline anchor system Testing Date	2 shore responders 1 response boats 3 boat responders N Tested	Tend through tidal changes. Deploy boom as depicted to divert incoming oil to the collection site. Anchor every 200-300'. Adjust angle as necessary to reduce entrainment. Set up shoreside recovery and tend throughout tide. Deploy shoreside anchor first.
DV-01a-alt	Redirect spilled oil from one location or direction of travel to a specific site for recovery.	800 ft protected water boom 4 marine anchor system 1 shoreline anchor system Testing Date	2 shore responders 1 response boats 3 boat responders N Tested	Tend through tidal changes. Deploy boom as depicted to divert incoming oil to the collection site. Anchor every 200-300'. Adjust angle as necessary to reduce entrainment. Set up shoreside recovery and tend throughout tide. Deploy shoreside anchor first.
DV-01b	Redirect spilled oil from one location or direction of travel to a specific site for recovery.	300 ft protected water boom 2 marine anchor system 2 shoreline anchor system 9/24/2013 Testing Date	2 shore responders 1 response boats 3 boat responders Y Tested	Tend through tidal changes. Deploy boom as depicted to divert incoming oil to the collection site. Anchor every 200-300'. Adjust angle as necessary to reduce entrainment. Set up shoreside recovery and tend throughout tide. Deploy shoreside anchor first.
DV-01b-alt	Redirect spilled oil from one location or direction of travel to a specific site for recovery.	300 ft protected water boom 2 marine anchor system 2 shoreline anchor system 9/24/2013 Testing Date	2 shore responders 1 response boats 3 boat responders Y Tested	Tend through tidal changes. Deploy boom as depicted to divert incoming oil to the collection site. Anchor every 200-300'. Adjust angle as necessary to reduce entrainment. Set up shoreside recovery and tend throughout tide. Deploy shoreside anchor first. Alternate deployment with tide - reset during slack.
EX-02a	Prohibit oil slicks from entering a sensitive area	200 ft protected water boom 1 marine anchor system 2 shoreline anchor system Testing Date	2 shore responders 1 response boats 3 boat responders N Tested	Tend through tidal changes. Deploy boom as depicted to exclude oil from sensitive areas. Anchor every 200-300'. Not tide dependent. Deploy shoreside anchor first.
EX-02b	Prohibit oil slicks from entering a sensitive area	500 ft protected water boom	2 shore responders 1 response boats 3 boat responders N Tested	Tend through tidal changes. Deploy boom as depicted to exclude oil from sensitive areas. Anchor every 200-300'. Not tide dependent. Deploy shoreside anchor first.
PR-03	Remove spilled oil by collecting it in a sorbent material	1100 ft sorbent boom1100 ft sorbent pom-poms31 anchor stakesN/A	2 shore responders Tested	Place and stake snare or sorbent boom in areas that are likely to pool and collect oil and across the mouths of the streams and intertidal areas. Use snare boom for persistent oils and sorbent boom for non-persistent oils. Approach the streams and intertidal areas on rising tide. Replace as necessary to maximize oil recovery.
SR-04	Remove spilled oil that has been diverted to a designated recovery site accessible from	3 skimming system 3 storage tank or bladder 3 hoses, pumps, fittings	2 shore responders	Set up shoreside recovery tactic at general location depicted on map. Some access points located at private residences. Access may be difficult.

Resources Protected				
Marine Mammals	None identified			
Fish	Anadromous Fish, Finfish			
Invertebrates	Lobster, crab, shrimp			
Birds	Shorebirds, Seabirds			
Threat/End. Species	None identified			
Cultural	None identified			
Subsistence	None identified			
Human Use	Beach, Boat Ramp, Marina, Recreational Fishing			
Commercial Fishing	None identified			
Land Management	State Management Area			
Coastal Habitiat	Marsh, Tidal Flats			
	Spe			
Strong tidal curron	ts at DV01a. Vessel operators should have local knowledge			

Boat ramp located at Roht Marine. Near site of DV-01b and DV-01b alt

View looking north from the end of Damons Point Drive. (DV-01a and EX-02a)

Special Considerations & Navigational Hazards
